GLASS ELEMENTS LTD
A TRANSPARENT EXPERIENCE

Designing modern forms of work effectively.

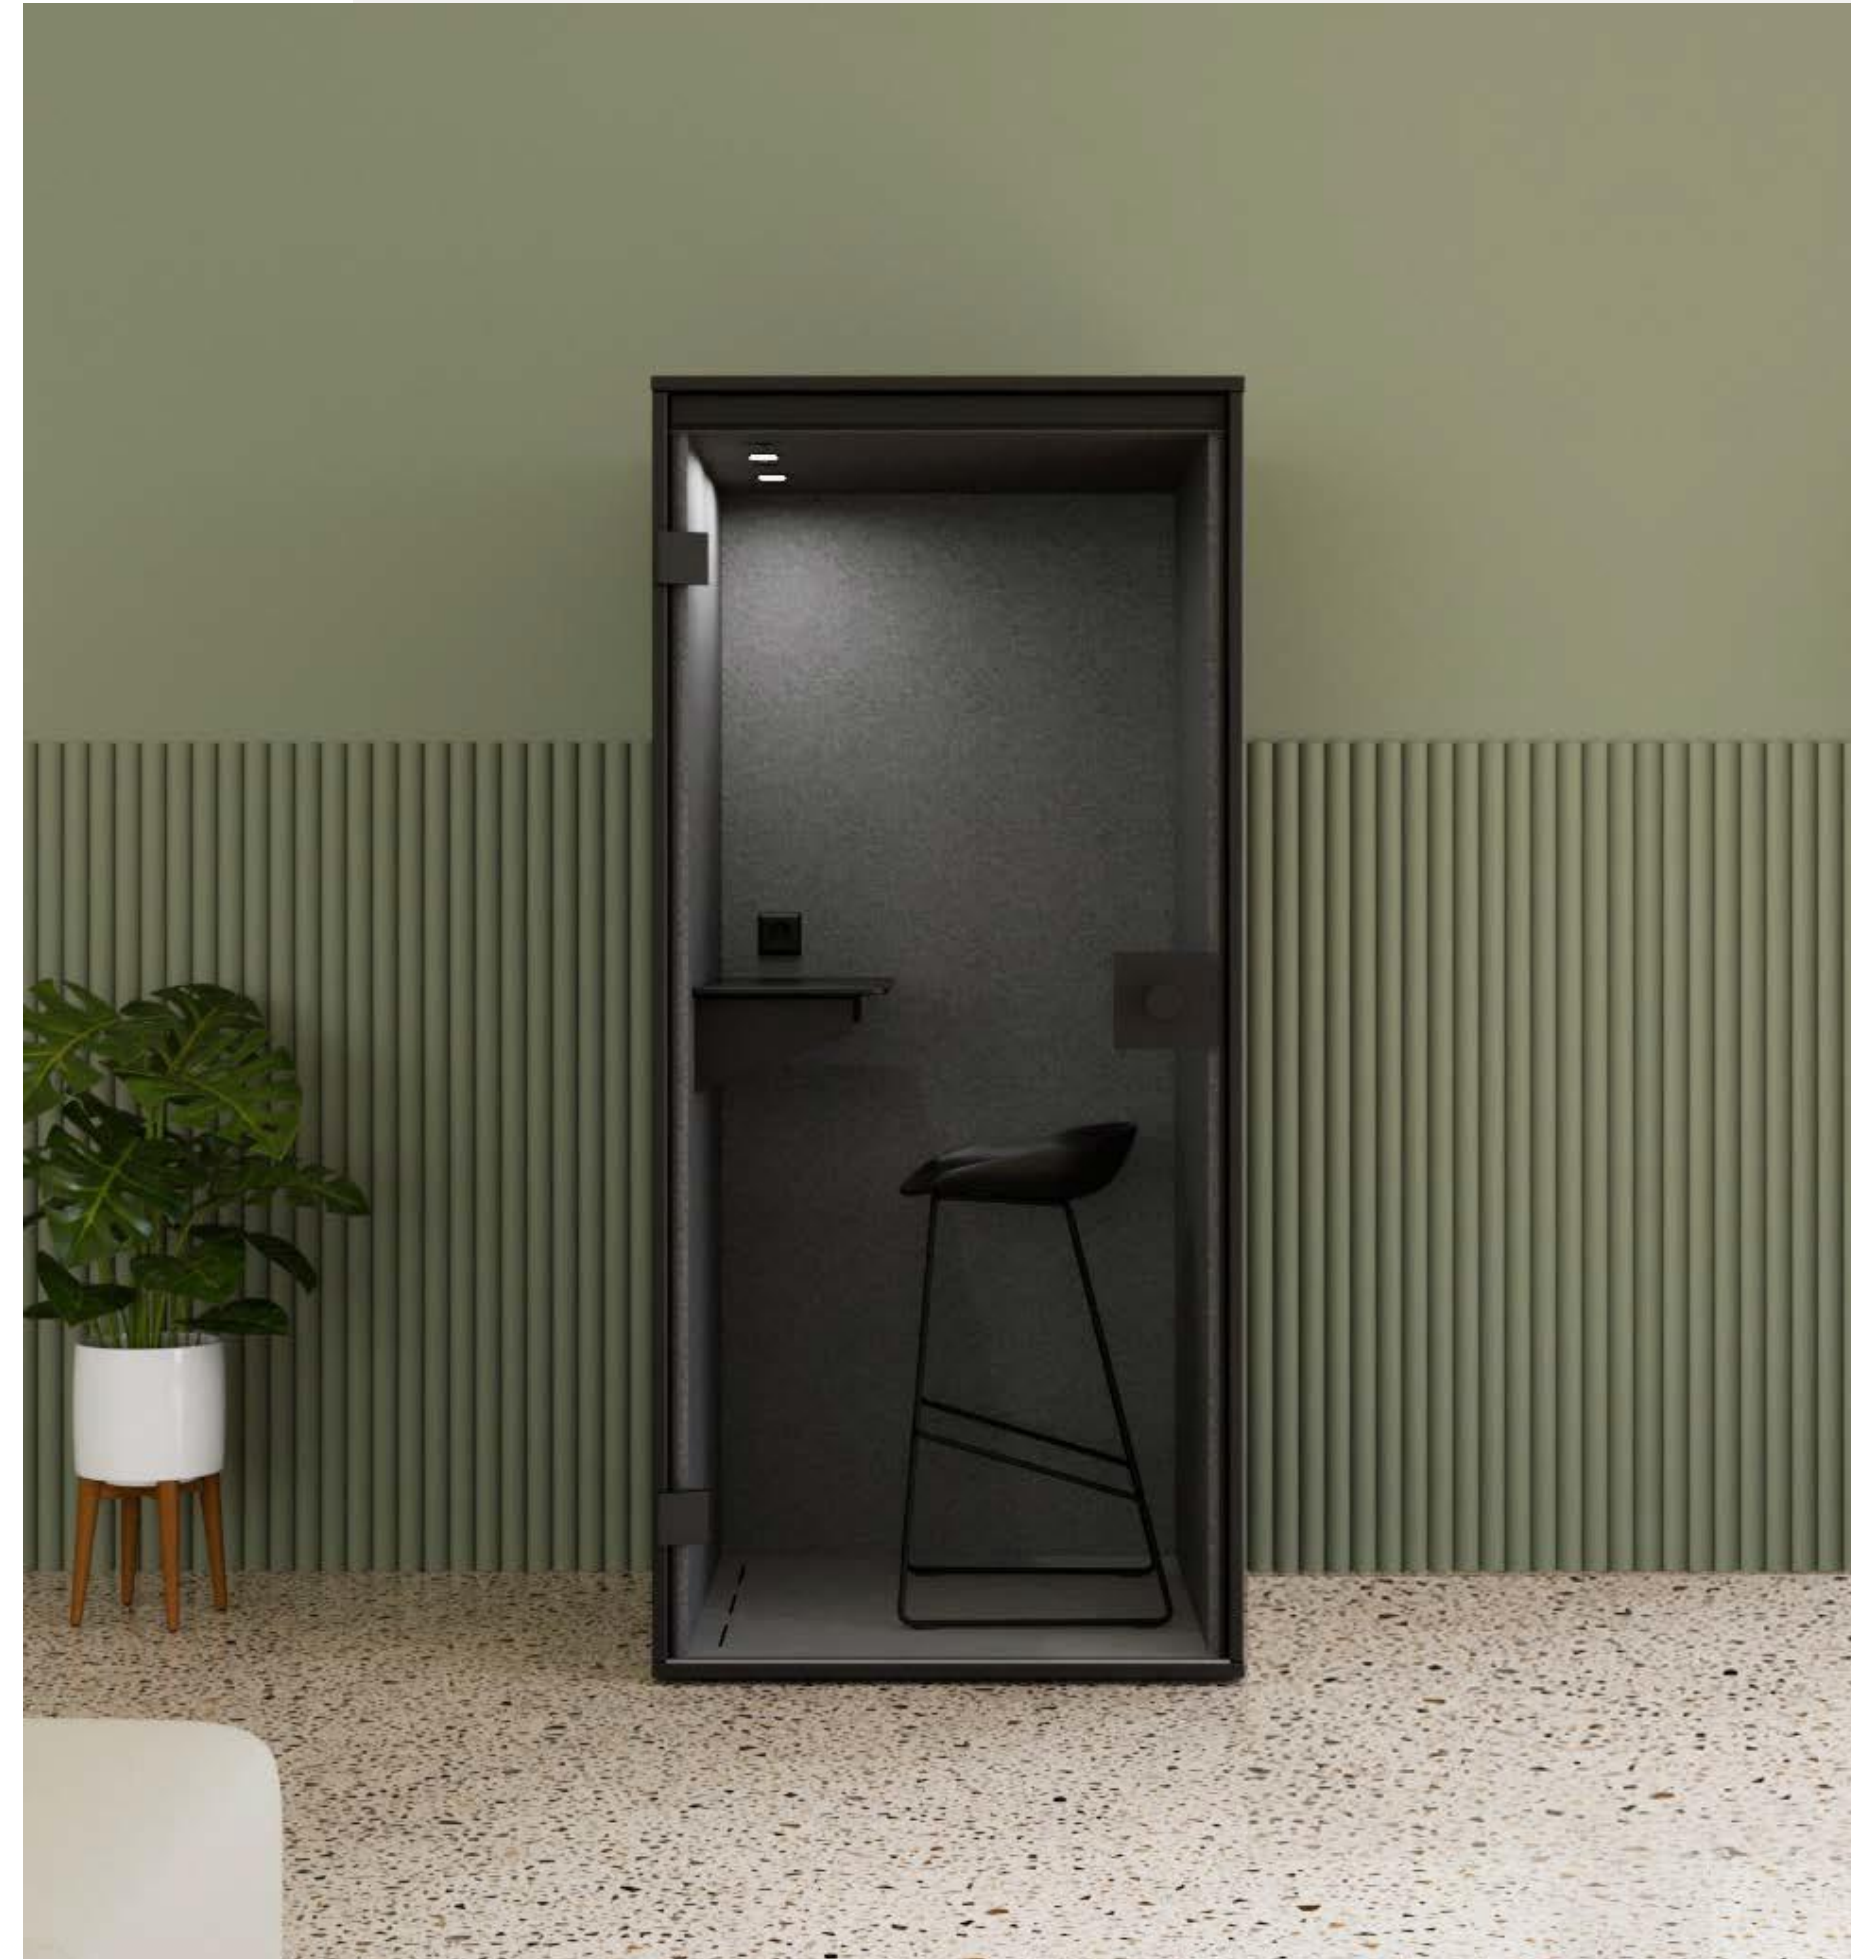

With our products, we support companies in shaping the future of work - in the interests of their employees. Together, we transform open-plan offices into productivity hubs where everyone can develop optimally.

Our booth has a minimalistic, modern and timeless design. Producing in Germany, we guarantee highest quality for an attractive price. In that way we ensure silence in any office space. Because undisturbed work should not be a luxury.

Our Principles

HOW WE DO WHAT WE DO

Sustainable Materials

We care about the environment. That's why we **avoid unnecessary plastic** and rely on sustainable materials. For example, the wood we use comes from sustainable forestry and our acoustic felt is made from recycled PET bottles. **And: Our packaging is also 100% recyclable.**

Last but not least: We produce exclusively in Germany. This way, we keep our delivery routes as short as possible and **actively reduce our carbon footprint.**

Highest Quality

Top quality is our top priority. That is why we **produce exclusively in Germany** and are in constant contact with our production facilities. This is how we ensure our high manufacturing standards at all times.

In addition, we work ceaselessly to meet the ever-changing requirements of our users. Therefore, we **attach great importance to the feedback of our customers** and partners and put a lot of energy into the continuous further development of our telephone booths.

GLASS ELEMENTS LTD
A TRANSPARENT EXPERIENCE

Intelligent Design

For us, beauty lies in simplicity. That's why we **focus on a minimalist, modern and timeless design** for our stylish phone booths. Unnecessary and expensive extras? Not with us!

Nevertheless, our phone booth offers everything you need and is the ideal addition to any office. And thanks to its simple design, it can be assembled and disassembled in just 30-60 minutes.
